EDUCATION

COMPUTER ENGINEERING, CKPCET

SURAT

2020 — 2024

CGPA-7.22

INTERNSHIPS

ReactJs , Futuretech BizSoft LLP

surat

- gained hands-on experience in core concepts such as **Function Components, props, states, Hooks** and **Routing**.
- Contributed to the development of modular components, optimizing **code efficiency**.
- Implemented **dynamic routing** structures for seamless user experiences.

Full-Stack Web Development , LeafDrive

surat

- gained foundational skills in **Node.js** and **MongoDB** for backend development.
- focused on creating **responsive websites** using **media queries** and **Bootstrap**, enhancing user experiences across devices.
- This experience broadened my toolkit and readiness to contribute effectively to future web projects.

PROJECTS

Nike Footwear showcase

- React-based project where I implemented various **function components** for the navigation and main content sections.
- These components are rendered in the **App.jsx** file, utilizing JSX for HTML rendering.
- Styling is accomplished with **CSS**, ensuring a visually appealing and responsive design.

MusclesHub

- It's a fitness website where i implement the combination of **HTML, CSS, JavaScript**, and **Bootstrap** to create a dynamic and visually appealing user experience.

Sides projects

- I have build small project such as **TO-DO List, Text-Utils-**, **Spotify-clone** for my reactJs practice to master my react hooks, props and states.
